

The Prophecy Club

Session 56: “Sky Events in the Final Seven Years: Using the Fourth Key”

Start Date: May 18, 2021 @ 10 AM (PDT)

May 26: Supermoon / Total Lunar Eclipse – Feast: 2nd Passover

- Numbers 9:4-14
 - When is the Second Passover? the 14th day of the Second Month
 - Why keep it? because an emergency prevented keeping it at Passover

Location of this Sky Event: In the Crab (the claws) - Aqrab

Decoding this Sky Event:

- 1) This eclipse is significant in that all darkening of the sun is a Biblical sky event, which is a sign of the Second Coming - Judgment Day
 - Joel 2:30-31 Yahweh will show wonders in the heavens... blood moons/solar eclipses
 - “show” means: “apply, appoint, ascribe, assign... make”
 - “wonders” means: “in the sense of conspicuousness; a miracle; by implication a token or omen: - miracle, sign”

In both the Bible and the sky-picture, Death is represented as having a “sting” —which is Eternal Death, the consequence for sin (Romans 6:23).

In this third star-family, we see the epic battle that is being fought over every soul. Soberingly, we also see that the outcome of this war determines our eternal destiny.

The momentous battle over each soul is even revealed in the Hebrew name, Aqrab, which means “the conflict/battle” or “war”. The Coptic name of this constellation is *Isidis*, meaning “the attack of the enemy”, or “oppression”.

Thankfully, mankind is not left to face such a huge threat unprotected! As we saw in the previous star-family, God has provided a way of Salvation for us, through His Son, *Yahshua* Christ. But Messiah doesn’t just save us in our sins, He saves us from them, empowering us to live as “new creatures” in Him (2 Corinthians 5:17).

Living in victory over the Tempter (1 Corinthians 15:57), through Messiah, we find deliverance, healing, and victory. In Christ, we are victorious—even over the “sting” of sin and Death.

Aqrab is one of the brightest constellations in the sky. It’s Latin name, *Scorpius*, literally means “scorpion” and “creature with the burning sting”. In the Northern Hemisphere, *Aqrab* lies close to the southern horizon; in the Southern Hemisphere, it lies high in the sky near the center of the Milky Way. *Aqrab* has many bright stars, including Antares, which is a red, supergiant and is the 16th brightest star in the sky.

The name of this constellation is mentioned in Psalm 144:1, where it is translated as "war" - Yahweh teaches our hands to war (spiritual warfare)

It is a fight against Eternal Death - we find deliverance in Messiah

In this sky event, the blood moon conjuncts with the star now called

Graffias, anciently known as Parsah (H6541), meaning: "claws _____"

– Zechariah 11:16

Symbol: destruction, tearing, harm

Meaning of this Sky Event:

The the lunar eclipse itself is a warning that Judgment Day is soon coming (Joel 2:30-31).

The blood moon is a sky event that is Yahweh talking to the whole world - because it is a sky event that gets everyone's attention. The placement in the claws of the Scorpion is a warning that Yahweh is going to destroy the destroyers. Evil seems strong now, but sky events like this one plainly show that evil will come to end in Yahweh's Judgment.

June 10: Annular Solar Eclipse – Appointed Time: Counting of the Omer
(Measuring/Judging Barley = 144,000)
"The Spirit and the Bride say come"

- Leviticus 23:10-16
 - What is this time? From First Fruits to Pentecost (Feast of Weeks)
 - What is its spiritual meaning? It is the time of measuring (judging) the barley grain (which is the first harvest that ends on Pentecost). The wheat harvest begins at Pentecost. The barley is the 144,000
 - First Fruits is the day after the Seventh-day Sabbath in Unleavened Bread.
 - From First Fruits it's 50 DAYS to Pentecost
 - Seven (7) Sabbaths must be complete
 - Pentecost is the day after the seventh, 7th-Day Sabbath.

Location of this Sky Event: The solar eclipse is between the bull's horns, calling attention to the message of the bull (Re'eym)

Decoding this Sky Event:

Re'eym is the original Hebrew name of the constellation now called Taurus. Of all the star-families in the heavens, *Re'eym* and its decans may well be the most exciting! This is because the star-family of *Re'eym* foretells the The Second Coming & the Seven Last Plagues

As any bull-fighter or rodeo-rider well knows, when a 2000 pound (907 kilogram) bull is in full charge; its massive, hurtling body is like an unstoppable freight train, bringing pain and punishment to anyone unfortunate enough to be on the pointy end of its horns.

In the King James Bible, *Re'eym* appears as “unicorn” (Numbers 23:22; Numbers 24:8). But the *Re'eym* was not a dainty, horse-like animal with a single horn between its eyes. That’s mythology. The *Re'eym*, an animal that is now

extinct, looked like a bull, but was much larger, being nearly the size of an elephant!

Further highlighting the warning of God's ultimate Justice and Judgment which is coming upon those who choose spiritual darkness is the *Pleiades*—7 stars on the neck of the great bull which foreshadow the Seven Last Plagues (Isaiah 13:11-15).

Meaning of this Sky Event:

Again a solar/lunar eclipse all point to Judgment Day (Joel 2:30-31). The solar eclipse is happening in the time of Counting the Omer as a reminder to God's people to be ready. And it is a warning to the world (solar eclipses are for the world, too) that those who rebel against Yahweh and reject Salvation will be "thrust through" (bull's horns) in the final coming Plagues. This is a call to repent! Repent or be thrust through.
