Feast of Tabernacles Meeting Descriptions

October 2-11, 2009

Morning Meditations for Tabernacles (by Mark Manfredine)

Each morning, Mark Manfredine will lead an in-depth Bible study into the symbolic types of Tabernacles. Learn the end-time significance of the trees used in the Sukkot. Discover the spiritual message in the sacrifice of the 70 bulls and the other Tabernacles sacrifices. Find meaning in the light and water ceremonies performed during this festival. These worship studies will include inspirational and Scripture readings, prayer, and an activity worksheet to enhance the learning. Come prepared to discover the significance of Sukkot like never before!

Good Health Depends on Good Circulation (by Ray Foucher)

We are told that "perfect health depends upon perfect circulation" (2T 531). Perfect circulation means your blood has to carry toxins out and get good nutrition and oxygen in. It must also be moving enough to be effective. Learn how important green leaves are for health and healing and the best ways to use them. You'll also learn some good ways to get those nasty toxins out. There might even be an exercise tip or two. Ray will also share a few concepts you likely have never heard before to help you grow your own greens.

Health Workshop: Healing Oils of the Bible and Other Herbal Remedies (by Shelley Roose)

Essential oils are a powerful tool in natural healing. Learn which oils to use for various needs. Discover a variety of herbs which aid the maintaining health and bringing the body to wholeness. This workshop will be very timely and practical for helping the listener learn how to find true health the way God intended.

Complete Health From the Inside Out (by Denny and Brenda Kaneshiro)

This series will challenge you to take a new approach to complete health, beginning with the innermost part of you. The root causes of disease will be uncovered as well as some recent discoveries on deadly stresses, their effects on the body systems and how to resolve them. A healthy lifestyle is only one piece of the puzzle to finding complete health. Learn what the other pieces are and discover how to adopt daily disciplines that will enable you to achieve complete health.

Health Principles for a New Start at Every Age (by Elijah (15), Tabitha (11), Elizabeth (8) and Esther (5) Kaneshiro)

The Kaneshiro children will share this important health talk with us. Learn vital health principles that can help you look and feel younger, even as you age.

Mazzaroth Messages Series (by Shauna Manfredine)

Before the constellations were made pagan in the Zodiac, the Bible called them the Mazzaroth (Job 38:32). And before the devil polluted the star stories, they were the original Bible teaching the plan of redemption through the star and constellation names. In Psalm 19:1-3 we find that the heavenly lights are talking every night. But, a terrible attack of the enemy has destroyed our comprehension of the star messages. In this planetarium-style series, Shauna Manfredine will recreate the sky pictures (on screen) while restoring the original names, meaning and messages of the stars and constellations. Shauna will also show what took place in the sky on important dates like Yeshua's birth, crucifixion, and the first Pentecost. In addition, we will be taking a sneak peak at the sky on future feast dates. Once again, we will learn the glorious message of the heavens. And we'll discover how the movements of the heavenly bodies are YHWH's prophetic hour hand, while the feasts are the minute hand.

End-Time Preparedness Seminar (by Christopher Manfredine)

Christopher Manfredine (age 15) will share some sobering current events in the development of the New World Order while showing some Biblical preparations YHWH's people can make. He will shed light on the importance of heart preparation as well as practical home preparations YHWH's children are counseled to make. In the second part of this seminar, Christopher will address simple guidelines for wilderness survival and important tips for our days of flight.

Lessons from Nehemiah (by Shauna Manfredine)

The story of Nehemiah rebuilding the wall of Jerusalem holds many vital, end-time lessons. Using this Bible story as a template, we will find a beautiful overview of Torah as our spiritual wall of protection.

Sabbath Through the Ages (by Shauna Manfredine)

Did you know that ALL Christians until the 300's AD kept the feasts (Sabbaths)? In this Scripture-based, and historically documented presentation listeners will examine Sabbath keeping in a journey through the ages from Creation to the 1800's. This is a hard-hitting presentation showing the importance of keeping ALL of YHWH's Sabbaths as His Church always has in every age!

Becoming a New Creature (by Mark Manfredine)

The Bible tells us that we are called to be new creatures in Christ. But what does this mean? Using the analogy of the transformation of a worm into a butterfly, discover the vital lessons of what YHWH means by a permanent life-change. This is what you get when sanctified living combines with the spiritual lessons of science!

Keys to Living Like You've Been Saved Workshop (by Mark and Shauna Manfredine)

This workshop will unmask spiritual warfare and teach the principles of victorious Christian living. Participants will all receive a copy of the booklet "Keys to Living Like You've Been Saved" along with a workbook to complete during this workshop. Throughout the course, we will address how people come to be in bondage to the enemy, how we can become free (in a nuts-and-bolts, practical way), and how to stay free. Each workshop session will begin with a lecture by Mark and Shauna, followed by small group discussions at the end. Become an intercessory prayer warrior! Learn to gain the victory over every evil habit! The answers from the Word have been compiled into this timely and practical workshop to aid you in your pursuit of true sanctified living.

Torah Workshop (by Shauna Manfredine)

The Scriptures teach that the Torah was to be read at the Feast of Tabernacles. This workshop will provide an in-depth look at YHWH's Law. Workbooks will be used in the Bible studies. Sessions will focus on the commandments and statutes that relate to each as well as an overview of the judgments and testimonies (the four parts of Torah).

Unwrapping Christmas (by Christopher Manfredine)

Where did the Christmas traditions come from? What's up with the Yule Log? What is the significance of the Christmas tree? Where did Santa come from? These and other questions will be answered through a historical and honest look at Christmas that will strip away the cute and thoroughly expose the paganism.

Sealed or Marked in Music (by Christopher Manfredine)

Have you ever wondered how to tell whether music was Christian or not? Is it the words? Does the music itself have anything to do with it? In this well-documented and Scripture based presentation, Christopher will clearly reveal the message of music and help the audience identify its spiritual realm. This presentation will incorporate occasional sound clips to fully "expose the works of darkness" (Ephesians 5:11) in a way that words alone cannot. The ultimate goal of this talk will be to clearly demarcate the difference between what music contains the Seal of YHWH or the Mark of the Beast.

Parenting Workshop (by Shauna Manfredine)

Parenting is one of the hardest and yet most rewarding things we do in our adult lives. And how it is done or not done heavily influences our children's eternal destiny. In this workshop the principles of godly parenting will be explained following the model of how our Heavenly Father deals with His people. Practical guidelines for parenting in each age range from birth into the teens will be addressed. Help your teens and children grow to be the people God designed them to be.

Earth's Final Moments (by Mark Manfredine)

This study is an encouraging and yet honest look into the final events of this earth's history. The watchmen on the walls of Zion always know what time it is. Hone your watchman skills as you discover vital keys to telling the prophetic time and find out what to expect.

What's Wrong With the Remnant? (by Shauna Manfredine)

Most have been taught that the remnant are Yeshua's saved people in the end of times. But, in Revelation 19:21, it says that Yeshua will slay the remnant with His own Sword! So what's wrong with the remnant to cause them to invoke such a judgment? And if the remnant isn't saved, who is?

Ending the Great Controversy (by Mark Manfredine)

The book of Psalms has long been heralded as a book of praise. But, did you know it also contains vital messianic prophecies? Gain perspective on the conflict and on the end of the spiritual controversy through the prophetic pictures found in the middle of the Bible!

Solomon's Temple Secrets (by Christopher Manfredine)

Yeshua once said that if the people didn't praise Him (fulfilling prophecy) the rocks would cry out. In this talk delving into Biblical archaeology the rocks actually seem to cry out a message of praise to the Father. What are they saying? Find out when Christopher reveals the Secrets of Solomon's Temple!
